ON THE STOCK EXCHANGE.

Wall Street houses which are not controlled by the Government bond syndicate are growing impatient over the continued high rates for sterling exchange and some of them have made arrangements to meet the demand for remittance by shipments of gold. The first large export of gold since last winter will be made to-morrow by a commercial house, and the same firm of builton brokers which made a small shipment last week will again send out an insignificant amount. As stated in this column this morning, the syndicate has been asked to reduce its rates for exchange under the threat of gold exports, but it has refused to alter them. It will continue to furnish bills to all who want them on a basis of \$4.90 for demand exchange, and there is no prospect that the market will ease to any extent until natural causes force it to do so. It must be remembered, however, that the exports of gold will not drain the United States Treasury, for the syndicate still stands pledged to protect the reserve and it has the best of facilities for doing so. The gold taken to-day for export was furnished by the Sub-Treasury and will bring the gold reserve a little below \$105,500,000. The withdrawal of gold and its exportation abroad are having no effect upon the sentiment in the Street, for the nature of the shipments are understood, and the recovery from the industrial and financial panic of itwo years ago is founded on conditions which have made the financial community and business circles in general confident and unwilling to believe that a small movement of gold abroad will affect the Treasury or cause the fear it did a year ago. To outsiders it seems that the general situation would be materially benefited if the syndicate would lower its rates for sterling exchange, and there is no doubt that the security market would show an immediate tendency to advance if lower rates prevailed, but, as has been said before, the syndicate evidently understands its business and is conducting its operations to meet its own ideas. The syndicate has about \$16,000,000 gold at its command in Europe, and it can call upon the big gold holdings of its members among the New-York banks if its should be compelled to protect the Treasury. It is doubtful, however, if the gold exports will amount to enough to bring the gold exports will amount to enough to bring the gold exported from abrasion is thus turned out first, and so it is probable that the loss sustained by the exporter from the poor gold will bring the cost of the stock, and all the gold which has suffered from has been asked to reduce its rates for exchange under the threat of gold exports, but it has refused to alter them. It will continue to furnish

there was a stronger tendency on the covering of BONDS-THE FEDERAL TREASURY. Government bonds sold: \$5,000 registered 4s of 1907 at 112%. Quotations were as follows:

In State issues there were sales of \$10,000 South

settlement 3s at 50¼, and \$2,000 Virginia funded debt 2-2s of 1891 at 62.

The Northern Pacifics again assumed the premier position among railroad bonds, and the activity displayed in those issues raised the total transactions to \$1,571,000, though the strength shown in them failed to inspire any response from the rest of the list. Northern Pacific consol 5s rose 1¼ to 42 and the receipis 2 to the rame figure. Denver and Rio Grande 4s advanced 1 to 87, but Missouri, Kansas and Texas 2ds lost 1¼ to 60¼, and Missouri, Kansas and Texas 2ds lost 1¼ to 60¼, and Missouri, Kansas and Eastern Isis 1½ to 92¼, the changes among other issues being insignificant in all cases.

The United States Treasury at Washington received to-day \$35,705 National bank notes for redemption. The customs receipts were \$607,915, the internal revenue receipts \$3512,248 and the miscellaneous receipts \$214,032. Total Government receipts for the day, \$1,334,295; expenditures, \$764,000; excess of expenditures, \$12,776,547.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

The local money markets showed no change in general features. We subjoin our usual table of rates, made up from information furnished by the busiest houses:

On call | 30 d. | 3 mos. | 4 mos. | 6 mos. | 3 mos 4 mos 6 mos

The foreign exchange market had a slightly easier tendency, with no change in rates for actual business. The Etruria, sailing to-morrow, will carry out \$1,150,000 gold, \$1,000,000 shipped by W. H. Crossman & Co. and \$150,000 by Nessiage, Colgate & Co. The gold was taken from the Sub-Treasury in exchange for legal tender notes. Rates at which business was actually done in the foreign exchanges were as follows:

\$5,000 and over; Chicago, 20c premium; San Francisco, eight par, telegraph 5c per \$100 premium. Boston, 125c, to 15c, discount.

Bank clearings were as follows at the places named: New-York—Exchanges, 187,765,196; balances, 15,023,079. Baltimore—Exchanges, 12,262,630; balances, 216,563. Philadelphia—Exchanges, 19,853,413; balances, 11,553,954.

The price of commercial bar silver in this market was 65 sc, nominal, per ounce. Mexican dollars were quoted at 53 sc. In London bar silver declined 1-16 to 205d. The Etruria, sailing tomorrow, will carry out 305,000 ounces of silver and 40,000 Mexican dollars.

Money on call in London was ½ per cent. The rate of discount in the open market was 5s per

1975-16, and a like amount for the account to 1973. American securities were weak and Canadian Pacific retired 1½ to 5645. Union Pacific & to 1315. New-York Central ¼ to 193. Louisville and Nashville ½ to 695. Southern Railway preferred ¼ to 42½. St. Paul ¼ to 695. and Erie ¼ to 195. while Northern Pacific preferred rose ¼ to 1815. Reading ¼ to 9% and Atchison ¾ to 10½. French rentes were quoted at 192 francs 15 centimes; Paris exchange on London, 25 francs 16½ centimes; Berlin exchange on London, 20 marks 43½ pfennings.

"Dun's Review" for this week says: "The week's news is not entirely encouraging, but is all the more natural because there are signs of midsummer dulness. Wheat prospects are not quite so good as last week, but still there are lower prices, as corn and cotton have been lowered. The exports of gold and the less favorable Treasury returns for July are not unexpected and mean nothing as to coming business. There is perceptible decrease in the demand for most manufactured products, and the actual distribution to consumers naturally lessens in mid-

manufactured products, and the actual distribution to consumers naturally lessens in midsummer. Much of the recent buying was to
anticipate a rise in prices, and such purchases
fall off when prices have risen. There are still
numerous advances in wages, but strikes grow
more numerous and important. In part, because
business was unusually large in the first half of
July, a quiet tone meets reasonable expectations."

July, a quiet tone meets reasonable expectations."

We have received the following: John H. Rathbone, secretary of the United States Cordage Bondholders' Committee, says: "Under the Sturgis-Waterbury pian of reorganization, the interest charges are \$180,000 and contingent charges ahead of stock of \$375,000, making \$55,000 per year. Under the bondholders' pian the interest charges are \$312,500 per annum for the first three years, a saying of \$242,500 a year, or about 1½ per cent on the stock in favor of the bondholders' pian. President Sturgis, of the United States Cordage Company, in his statement to the Bondholders' Committee said he estimated the carnings on rope \$400,000 per year as a minimum, and in addition about \$150,000 on twine. From other and independent sources this committee estimates that it is absolutely safe to count on at least \$400,000 on the entire business, and they have strong reasons to anticipate in the revival of trade this amount will be legely exceeded."

GEORGE MOSLE. CHARLES A. PEABODY, JR., Bundholders' Reorganization Committee. BURRILL ZABRISKIE & BURRILLA

Secretary, 21 Broad Street, New-York,

TO THE BONDHOLDERS OF

THE UNITED STATES CORDAGE CO.:

A plan of reorganization has been formed under which you have been invited to deposit your bonds with the Manhattan Trust Company. It appears to be the best of which circumstances admit. New money has to be raised, and no plan to raise it, except by a first lien, has yet been suggested. We have deposited our bonds and those we represent, and advise the prompt acceptance of this plan and the deposit of bonds under it as the only means, in our judg-ment, of averting further heavy loss. We believe that if the mills are closed and the business of the company passes to competitors, further disaster will result to the bondholders. New-York, July 12, 1895.

NEW-YORK, July 12th, 1805. NEW-YORK, July 12th, 1895.

The undersigned, at the request of a large number of holders of the securities of the UNITED STATES CORDAGE COMPANY, have extended the time for the deposit of securities to and including July 20th, 1805, under the plan of reorganization:

1. The plan proposed was arrived at after a careful exmination of the property and business of the Cordage Company, by disinterested persons familiar with the business and competent to judge.

2. The total of fixed charges proposed by the plan is the limit which the reorganized company should assume, and

limit which the reorganized company should assume, and all that a consideration for the interests of bondholders

and stockholders alike will warrant.

3. New capital, as proposed in the present plan, is absolutely necessary, and at an early day.

4. An underwriting in full has been obtained; no other plan is proposed, and no other underwriting exists; and an abandonment of the plan, with a subsequent closing of the going business of the Company, would be simply dis-
